

TO USE PROADDICTION EFFECTIVELY, FOLLOW THESE STEPS:

1. **Wash Hair**

Use Clarifying Shampoo for virgin hair only.

Use Hydrating Shampoo for damaged, porous, colored, or bleached hair.

2. **Dry Hair 100%**

3. **Apply Treatment (Shake Well)**

Work in small, thin partings.

Apply ¼" (1 cm) from scalp to ends.

Which Formula?

Purple Treatment: All hair types (levels 1-8)

White Treatment: To dilute for levels 9+

Mix 30% White + 70% Purple: for levels 9-12

Plastic Caps:

Levels 1-8: Use plastic cap entire processing time

Levels 9-12: Use processing cap for 10 mins, then remove

4. **Processing Time**

Thick hair: 45-60 mins

Fine hair: 35-45 mins

5. **Rinse Hair 100%**

6. **Dry Hair, choose your desired result:**

Straight hair without frizz: Flat iron at 450°F (230°C), small sections until static.

Reduce curls/frizz: Blow-dry with round ceramic brush, then iron lightly.

Maintain texture without frizz: Blow-dry with round brush until shiny & smooth.

7. **Wash with Hydrating Shampoo**

**If toning/coloring same day, apply mask after toner/color.

8. Towel dry hair.

9. Apply Mask for 10 minutes , then rinse.

10. Dry and style as desired.
